# From Admission to Graduation at Vertex University

Vertex University

15 September, 2025

At Vertex University, the student's journey represents a modern model of higher education from admission to graduation. It begins with preparing admission documents and extends through a distinctive study experience powered by digital technologies and flexible teaching methods—all the way to smooth graduation. In this article, we highlight the steps of [registration and admission](#), the academic system, and the unique aspects of student life at Vertex.

## **First: Bachelor's Degree**

The Bachelor's program at Vertex University is designed for ambitious students aiming to complete their education efficiently without compromising quality. The university offers an accelerated and flexible academic system with three semesters per year, allowing students to finish their degree in under three years.

### **Bachelor's Degree Study System**

The following details summarize the academic structure for the bachelor's program:

- Minimum required credit hours: 120
- Number of semesters required: 8
- Semesters per year: 3
- Annual credit hours: 45
- Semester duration: 8 to 10 weeks
- Expected completion time: 2 years and 8 months

### **Advantages of This System**

This flexible model enables students to:

- Complete their degree in less than 3 years instead of the traditional 4 years
- Study year-round with distributed coursework
- Benefit from an intensive schedule ideal for entering the workforce quickly

## **Admission Requirements for Bachelor's Degree**

To apply for the Bachelor's program, students must fulfill the following:

- Official secondary school certificate or equivalent
- Conditional admission possible pending document completion (terms apply)
- Proof of English proficiency if the language of instruction is English
- Meeting the specific requirements of the Bachelor's
- Submission of original certificates and verified copies
- Completion of the online application form
- Payment of registration and tuition fees
- Signing the university policy compliance agreement

## **Required Documents**

Applicants must prepare the following documents:

- Colored copy of secondary school certificate
- Colored copy of personal or family ID
- Colored copy of passport
- Personal photo (6×4, white background)
- Completed and signed the [registration form](#)

## **Second: Master's Degree**

Vertex University's [Master's programs](#) offer an intensive and effective postgraduate experience, focused on in-demand fields such as Business Administration and [Data Science](#). Thanks to a fast-paced, flexible system, students can complete the degree in less than two years.

## **Master's Degree Study System**

This table outlines the Master's program structure:

- Minimum required credit hours: 36
- Number of semesters required: 4
- Semesters per year: 3
- Annual credit hours: 45
- Semester duration: 8 to 10 weeks
- Expected completion time: 1 year and 8 months

## **Advantages of This System**

With this model, students can:

- Complete their Master's in 1.5 years instead of 2 or more
- Study continuously throughout the year
- Accelerate their entry into the job market

## **Admission Requirements for Master's Degree**

To apply for the Master's program, applicants must:

- Hold a Bachelor's degree from an accredited university or country
- Have a degree in a related field (e.g., Marketing, Business, Data Science)
- Provide proof of English proficiency
- Be eligible for conditional admission if needed
- Submit original degree and transcript with verified copies
- Complete the online application form
- Pay applicable fees
- Sign the university policy compliance agreement

## **Required Documents**

Master's applicants must submit the following:

- Colored copy of a Bachelor's degree
- Colored copy of personal or family ID
- Colored copy of passport
- Personal photo (6×4, white background)
- Completed and signed registration form

## **Third: Doctorate Degree**

Vertex's [Doctorate program](#) marks the pinnacle of academic pursuit, ideal for professionals and researchers aiming to create impact in their fields. It's both flexible and intensive, allowing completion in under two years.

## **Doctorate Degree Study System**

Below is an overview of the doctoral study structure:

- Minimum required credit hours: 36
- Number of semesters required: 4
- Semesters per year: 3
- Annual credit hours: 45
- Semester duration: 8 to 10 weeks
- Expected completion time: 1 year and 8 months

## **Advantages of This System**

The program provides:

- Short completion time relative to traditional programs
- Flexible distribution of coursework year-round
- An intensive structure suitable for ambitious researchers

## **Admission Requirements for Doctorate Degree**

Doctorate applicants should meet the following:

- Hold Bachelor's and Master's degrees from an accredited university or country
- Degrees must be in a relevant field
- Provide proof of English proficiency
- Conditional admission allowed pending documents
- Submit original degrees and transcripts with verified copies
- Complete the online application form
- Pay applicable fees
- Sign the university policy compliance agreement
